

**PROMOITALIA**  
MEDICAL AESTHETICS

*pink* **GF**

*Each woman has the  
right to feel comfortable*

**Anti DRYNESS, TIGHTENING  
& RESTORING effect**

The **passing of time** inevitably causes **loss of tone and tissue functionality**, not only aesthetic but functional as well. For women, aging is more **accentuated with menopause**. With the reduction and interruption of hormone production, difficulties and discomforts often arise, therefore **reducing the quality of life, especially in the intimate and sexual sphere**.

**The most common problems are:**

## DRYNESS

Vaginal dryness can be observed in many ages, even though it is surely more common on women during menopause or post-menopause.

There can be various causes:

- *Hormone decrease*
- *Use of specific medicines*
- *Stressful lifestyle*

## ITCHING

One of the main consequences of a reduced vaginal lubrication are:

- *Alteration of pH values*
- *Irritations*
- *Discomfort*

## LOSS OF TONE

Hormone decrease, a hectic lifestyle and the physiological skin aging determine a **loss of tone**, both on the vaginal area (labia majora and labia minora) and on the vulvar area.

**All of this causes a remarkable decrease of the life quality in the intimate sphere of each woman.**

## Anti DRYNESS, TIGHTENING & RESTORING effect

### MAIN INGREDIENTS

- *Glycerin*
- *Tripeptide-29*
- *Vitamin E*
- *Lactic Acid in low concentration*
- *Low / High molecular weight Hyaluronic Acid*

### SPECIFIC EFFECTS

- *Osmotic Hydration*
- *Stimulation and tonification*
- *Powerful antioxydant*
- *natural pH stabilization*
- *Super moisturizing and restoring*

### EASY APPLICATION

The **eronomic shape** dispenser has been designed in order to allow an **easy, quick and comfortable application**, respecting the **personal intimacy**.
