

PROMOGEL

Ready to use, no-rinse,
hygienizing and moisturizing
skin gel

PROMOITALIA
MEDICAL AESTHETICS

Promogel is an **alcohol-based** solution enriched with **plant extracts** and **essential oils**, ingredients which simultaneously disinfect and moisturize skin.

The formulation contains Aloe vera extract and glycerin, substances that restore and maintain the skin's natural hydrolipidic film.

The natural essential oils of eucalyptus, Thyme and Turmeric, of which **Promogel** is enriched with, are plants with well-known **antibacterial**, **antifungal** and **antiviral** properties.

Promogel is indicated when rapid skin disinfection activity is required without rinsing. It doesn't leave skin dry and it's highly recommended for sensitive and delicate skin.
